It's all about the fish®

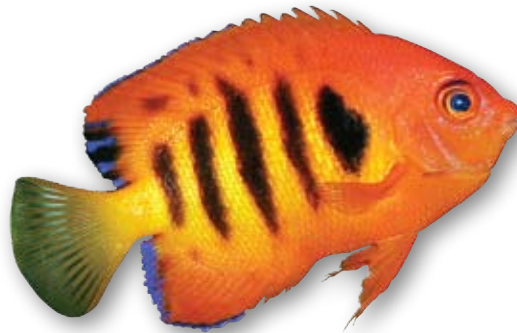

Aqueon® products have been designed and formulated with one goal: provide the beginner and long term hobbyist the highest quality, most innovative products in the marketplace.

In this catalog you'll see products that have many unique points of difference. Among them, foods that have been formulated with premium "natural" ingredients. A line of aquarium filters that are self-starting and have "independent lab" certified flow rates.

Standing behind the Aqueon family of products is a dedicated group of experts committed to the success and growth of the aquarist hobby. We are dedicated to develop, sell and support products that maintain and encourage healthy, life sustaining aquatic environments.

Quality construction. Innovative design. Unsurpassed durability. These are the hallmarks of Aqueon aquariums and furniture. With over 40 sizes of aquariums—all suitable for freshwater or marine inhabitants—and an ever-growing line of stylish, functional furniture, there is certain to be an Aqueon aquarium setup to fit your style.

Standard Aquariums

Can stand up to almost any application

The standard size aquarium is made with care to ensure that it can stand up to almost any application. These aquariums come in a wide range of sizes with black or oak trim styling and large aquariums feature one-piece center-braced frames that eliminate glass bowing.

Features & Benefits

- Quality constructed for freshwater and marine applications
- Wide range of sizes and styles
- Sturdy frames eliminate glass bowing

Pre-Drilled Aquariums

With MegaFlow™ and Corner Overflow™ Systems

The MegaFlow and Corner Overflow Systems are engineered to allow maximum water flow to the main filter system while greatly reducing cascading water sound. The Aqueon overflow system design includes multi-level water intakes, providing more effective circulation and filtration, and eliminating dead water zones in your aquarium.

Features & Benefits

- The back wall MegaFlow design keeps unsightly plumbing from being seen.
- The Aqueon overflow systems are securely bonded and sealed to the back wall of the aquarium with silicone, making it rugged and durable to allow the user to stack rock or decorations up against it.
- Corner Overflows use minimal space in the aquarium.

MegaFlow™ single molded overflow aquarium.
Overflow: 600 GPH each.
(Gravel not included.)

Corner Overflow™ aquarium.
Overflow: 400 GPH each.

Both the MegaFlow™ and Corner Overflow™ Systems use the Overflow Accessory Kit, item # 29251 (page 32).

Wave Aquariums & Furniture

Unique curved glass offers a natural view of aquarium fish

This unique curved glass aquarium offers a natural view of aquarium fish in a comfortable 95 gallon size. Large enough to make a dramatic impact in any room, the Wave offers the wave-front "glass ripple" in both a left and right version. The 95-Wave Aquarium is available in standard or pre-drilled MegaFlow. Furniture-quality stands in maple, cherry and black finishes are available in 32" heights for optimum viewing. The Versa-Top allows for custom lighting, utilizing the numerous strip light options available.

Features & Benefits

- Make a dramatic impact in any room
- Furniture-quality stands
- Allows for custom lighting

20" Black Deluxe Full Hood (21220)
20H Aquarium with Black Trim (10020)

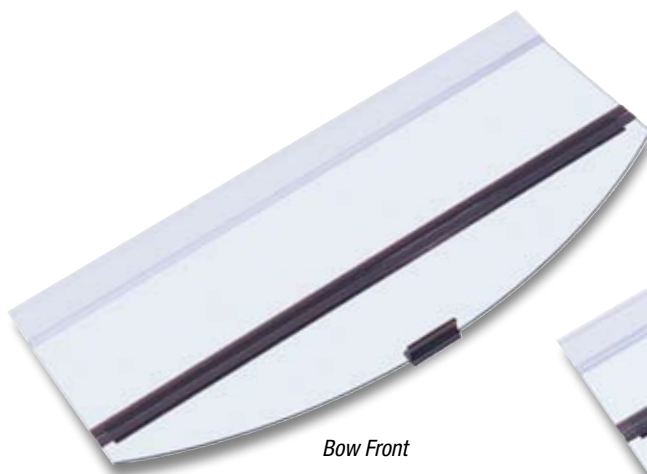

Versa-Top™ Hinged Glass Tops

Keeps fish and water in your aquarium where they belong

Our glass tops are perfect for reducing evaporation and keeping fish from jumping out of your aquarium. Each Versa-Top™ features a clear vinyl back strip that can be easily cut to custom fit your accessories. Twin-tube models have larger back glass to accommodate twin-tube, triple-tube and compact strip lights. Special store-use Versa-Top™ features heavy 3/16" glass with notched corners for air lines and larger glass sections that allow easier netting of fish.

Features & Benefits

- Reduces evaporation
- Keeps fish from jumping out of aquarium
- Vinyl back strip can be custom cut to fit your accessories

Strip Lights Aquarium Lighting

Used with Versa-Top™ for proper aquarium lighting

Strip Lights are used with Versa-Top™ for proper aquarium lighting. Fluorescent models feature internally-mounted electronic ballasts with instant-start circuits that allow operation on a timer or switch-controlled outlet. All fluorescent models also include full-spectrum fluorescent lamps. Deluxe models include polished aluminum reflector and full length fluorescent tubes. These are exact strip light replacements for full hoods.

Important: Only use Strip Lights over glass tops. They are NOT designed to be safely used over open water.

Black Incandescent
Strip Light

Oak Fluorescent
Twin Tube Strip Light

Features & Benefits

- Uses 50% less electricity, distributes more light and generates 60% less heat than standard magnetic ballasts.
- No more "flicker" - instant start can extend lamp life by up to 50%.
- Lighter weight design.

FILTRATION

- Quiet Flow Aquarium Power Filters
- Filter Cartridges
- MegaFlow Sumps
- Overflow Accessory Kit
- Adjustable Drainpipe
- Pre-filter Sponge

Proper filtration and water flow plays an essential part in the overall success of your aquatic environment, which is why Aqueon makes it easy! Aqueon offers a variety of filtration options to accommodate any size aquarium for both fresh and saltwater environments. All Aqueon filtration is simple to setup and maintain and offers features to keep your fish healthy and active.

It's all about the fish.

Quiet Flow™ Aquarium Power Filters

Enhance water quality and clarity

Aqueon's patented design includes unique features to enhance water quality and clarity, increase oxygen levels and lessen noise. Includes four-stage filtration—mechanical, chemical, biological and wet/dry—for the cleanest, clearest oxygen-enriched water.

Features & Benefits

- Simple: self-priming pump
- Silent: submersed pump for quiet operation
- Superior: keeps water crystal clear

325 GPH is the lab certified flow rate
for the Quiet Flow 55 only.

EQUIPMENT

- Submersible Aquarium Heaters
- Water Changer
 - 20 Foot Extension Tubing
 - 18 Inch Tube
 - Flow Valve
 - Faucet Adaptor
- Submersible Pumps

Aqueon offers the best, easiest to use equipment to aid in keeping your fish healthy and to assist with routine maintenance. All Aqueon equipment has been rigorously tested to perform better and last longer than the competition, while promoting a healthier aquatic environment.

Submersible Aquarium Heaters

The most accurate, reliable, durable and easy to use aquarium heaters on the market

Incredibly Accurate

Each heater is calibrated two separate times during production to ensure accuracy within one degree of the temperature setting on the dial.

Extremely Durable and Guaranteed for Life

Aqueon Submersible Aquarium Heaters are made from thermal shatter-resistant glass and were designed to absorb impacts, making them extremely durable. All Aqueon heaters come with an unparalleled lifetime warranty to back up their unsurpassed longevity.

Safe, Long-Lasting and Dependable

The tube and temperature dial are UL approved for safe, long-term submersion in water. The heater is also programmed to turn itself off when not properly submersed to avoid overheating and damage.

Features & Benefits

- Accuracy to within one degree
- Shatter-resistant glass
- Automatic safety shut off

See page 51 for heater requirements.

Available in five sizes/wattages: 50 Watt, 100 Watt, 150 Watt, 200 Watt and 300 Watt.

Aquarium Water Changer

Eliminates spills and heavy lifting

Make routine water changes and vacuuming gravel easy and efficient
The Aquarium Water Changer was designed to help eliminate the potential for messy spills and transporting heavy buckets of water. Simply attach the water flow assembly to the faucet using the included multi-connection faucet adaptor and turn on the faucet.

Complete Water Flow Control

The easy-grip molded handle on the gravel tube includes a built-in on/off valve for total water flow control at your fingertips. The same valve on the sink attachment can be adjusted to reduce splashing of dirty water in the sink.

Features & Benefits

- Make water changes cleanly and efficiently
- Vacuum gravel thoroughly
- Complete water control at your fingertips

Built-in on/off valve on gravel tube and sink attachment provide complete water flow control at your fingertips.

Submersible Pumps

Energy efficient and reliable

Aqueon® Submersible Pumps were developed and tested for over two years to deliver the most reliable, energy-efficient, and quiet submersible pump possible. For fresh or saltwater systems, these powerful units are ideal return pumps for under-cabinet sump filtration systems or any submerged water circulation needs.

Features & Benefits

- Quiet, with a magnetic drive impeller
- Because it is energy efficient, it costs less to run
- Designed for continuous duty

Model 4000

Adaptors included.

755 GPH is the lab certified flow rate for the Model 4000 Submersible Pump only.

FISH FOOD

- Tropical
- Goldfish
- Cichlid
- Marine

Aqueon fish foods were developed by aquatic hobbyists to provide the nutritional essentials for fish. All Aqueon foods have been formulated using premium natural ingredients that fish are naturally attracted to, provide a healthy diet, and bring out true colors. This combination helps simplify maintaining healthy, energetic fish allowing more time to enjoy their beauty and serenity.

- Natural ingredients and colors with added vitamins, minerals and trace nutrients
- Will not cloud water when fed as directed
- Formulated so that fish utilize more of what they eat, creating less waste

Jar Sizes

Tropical Foods

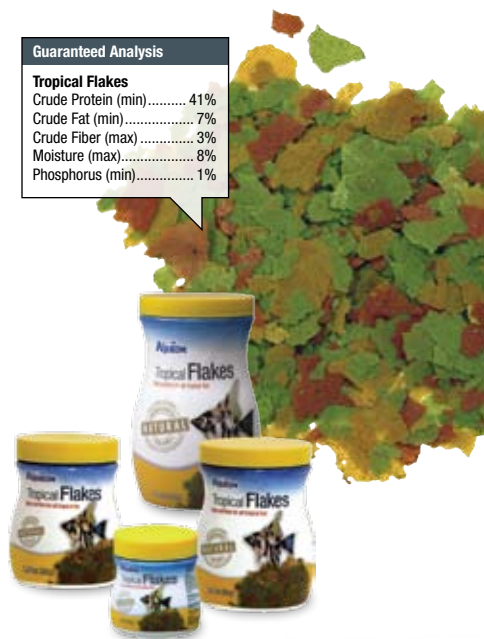

All the nutritional essentials for a wide array of tropical fish

Aqueon Tropical Foods provide all the nutritional essentials for a wide array of tropical fish. These diets are the nutritional building blocks that provide a healthy daily diet and bring out natural colors in fish.

WATER CARE

- Ammonia Neutralizer
- Water Clarifier
- Water Conditioner
- Water Renewal

Aqueon water care products are designed to provide effective solutions to aquarium setup and use. Simple to understand and apply, these products will help maintain the healthiest environment for your aquatic pets. Use Aqueon water care products when setting up your aquarium for the first time, while doing routine water changes and while cleaning or changing filter media to keep your fish healthy and active.

Ammonia Neutralizer

Designed to provide effective solutions to aquarium set up and use

Ammonia levels will rise naturally due to the accumulation of fish waste and the breakdown of any uneaten food in water. Harmful ammonia is neutralized and tap water is conditioned for fish after a single dose of Aqueon Ammonia Neutralizer.

Features & Benefits

- Neutralizes ammonia and nitrites that can build up in aquarium water
- For fresh and saltwater aquariums

Water Clarifier

Maintain the healthiest environment for your aquatic pets

Simple to understand and apply, these products will help maintain the healthiest environment for your aquatic pets. Aqueon Water Clarifier works by clinging to the suspended dirt particles that cause the water to appear cloudy or murky. This makes them easier to filter out or settle to the aquarium bottom.

Features & Benefits

- Quickly clears cloudy water
- Safe for all fish and plants
- For fresh and saltwater aquariums

Water Conditioner

Designed to provide effective solutions to aquarium setup and use

Neutralizes the chlorine typically found in tap water, making it safe for fish. Helps to reduce the stress on fish as they become familiar with their new environment. Aids in restoring the natural slime coat to skin and gills, which can be worn away from netting and transporting fish.

Features & Benefits

- Restores the natural slime coat to skin and gills
- Detoxifies ammonia and other elements that are released from fish waste

Water Renewal

Maintain the healthiest environment for your aquatic pets

Water in lakes and rivers contains renewable trace minerals that are essential for fish and plants to live and grow. In an aquarium environment, these minerals are depleted over time by fish, plants and carbon filtration. Aqueon Water Renewal replaces these biologically essential minerals, restoring water to its natural state and promoting the health, color, and vigor in fish.

Features & Benefits

- Replaces essential minerals
- Restores water to its natural state
- Promotes the health, color, and vigor in fish

- Aquarium Plants

Make your fish feel comfortable and at home with Aqueon aquarium plants. A variety of plants will provide your aquatic inhabitants with natural hiding places, essential for relieving stress and promoting overall health. Also use Aqueon aquarium plants to add beauty and depth to any aquarium, no matter the size or shape.

Aquarium Plants

Beauty and function

Creating a beautiful aquarium and essential hiding places for fish is easy with Aqueon® plants and décor. Mix different colors and sizes of plants—short plants in the front, tall ones in the back—to build visual depth.

Features & Benefits

- **Weighted base to keep the plant right where you want it**
- **Plastic foliage cleans easily with warm water**

Packaging Dimensions:

- S** Small: 5.25" L x 1.5" W x 8.75" H
- M** Medium: 5.75" L x 1.5" W x 12.25" H
- L** Large: 6" L x 1.5" W x 17.5" H

Technical information

Use this information to plan what size aquarium fits your needs and space. For safety reasons, and to fulfill warranty requirements, it is essential to place your aquarium on an appropriately-sized Aqueon aquarium stand, which will meet all weight and safety specifications. Also, please note that tempered-bottom aquariums are exceptionally strong but cannot be drilled. (See page 8 for pre-drilled aquariums.)

Critical dimensions for all aquariums (continued)

Power Cord Drip Loop

Since some of your aquarium equipment requires electricity to operate, your aquarium should be placed within close proximity to an electrical outlet.

One of the best and simplest tools that will enforce the separation of water and electricity is the “drip loop.” The drip loop is formed by ensuring that the power cords leading into the outlet approach the outlet from underneath the plug socket. If water drips down a power cord, it will fall off at the upward bend in the cord, never making it to the electrical outlet.

Quick Tips

Location:

- Do NOT place your aquarium near a window or door.
- Do NOT place your aquarium where it will receive drafts or direct sunlight.
- Make sure your aquarium is level and placed on an Aqueon aquarium stand near an electrical outlet.

Decorating:

- Choose a substrate (gravel) suited to the type of fish you will be keeping.
- Rinse the substrate thoroughly before adding to the aquarium.
- Place appropriate décor in the aquarium.

Adding Water:

- Being careful not to disrupt the substrate and placed décor, fill the aquarium with water.
- Add necessary water conditioners to dechlorinate or treat the water.
- Test the water's pH. Adjust as needed.

Filtration:

- Position your Aqueon power filter on the back of the aquarium.
- Install the filter cartridge in the filter.
- After the aquarium has been filled with water, plug in the filter to start it.

Temperature:

- Position your Aqueon heater on the back wall of the aquarium.
- Use suction cups to secure the heater on the aquarium wall near good water circulation.
- The heater can be fully submersed in the water.

Lighting:

- Place hood and strip light on top of the aquarium; plug in and turn on.

The Nitrogen Cycle:

- Fish waste buildup will make water unsuitable for fish, so test the water regularly.
- Your Aqueon filter, frequent water changes and some simple routine maintenance will keep fish happy and healthy.

Adding Fish:

- Decide what fish you'd like in your aquarium. It's best to start with hardier species.
- Acclimate your fish before releasing them.
- Add fish gradually over the course of a few months to get to the desired amount. Do not add all at once.

Maintenance:

- Perform regular partial water changes.
- Replace the filter cartridge monthly.
- Test your water regularly.

Food the Way Fish Like It... Naturally

Fish food should be made
from the foods fish eat.
Like whole fish, krill, kelp...
the natural stuff.

That's the way we make it.
That's the way fish like it.
